

Four Squares Puzzle

by David Mitchell

You will need a single square of paper, white one side and coloured on the other.

The challenge is to fold this square to create the pattern shown below using the minimum number of folds. No cuts are allowed.

Many other intriguing puzzles that are set and solved by folding paper can be found in David Mitchell 's book Paperfolding Puzzles ISBN 978-0-9534774-5-6 which can be purchased through the online shop at www.origamiheaven.com or at any good online retailer.
