

Flatmates

Designed by David Mitchell

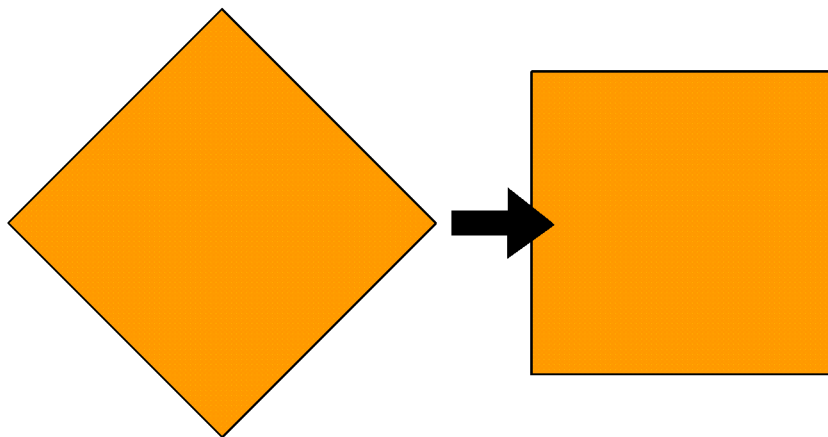

Flatmates is a one fold extreme minimalist design made from two sheets of paper.

Flatmates was designed in 2005. Designing one fold designs is harder than you might think.

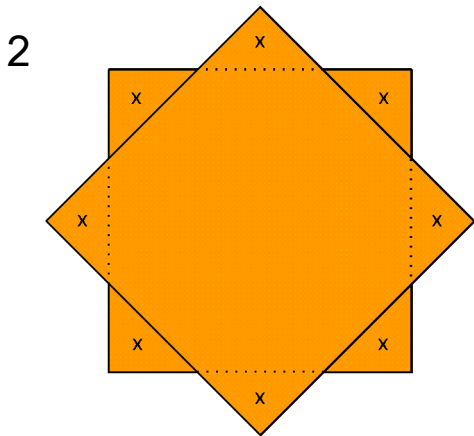

You will need two identical squares of paper. They should be the same colour on both sides.

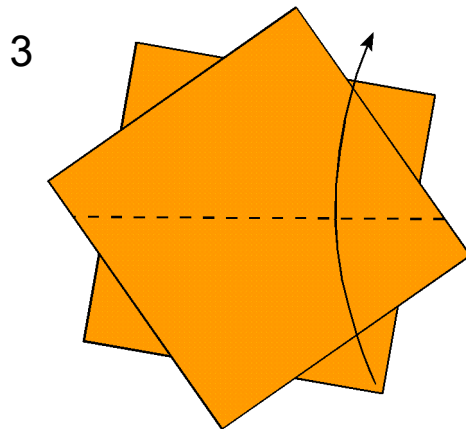

1

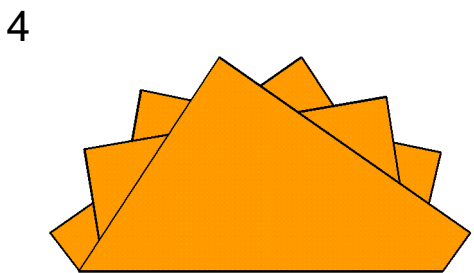

1. Lay one sheet on top of the other like this.

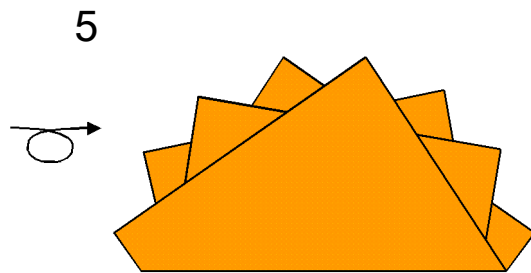

2. Ideally all the single layer areas marked with an x should be the same size and shape.

3. Fold the bottom half of both sheets upwards like this. Make sure the sheets stay together as you do this.

4. This is Hyacinth Hedgehog. Turn her over sideways.

5. And this is Hermione Hedgehog, her flatmate, naturally.
