

A Change of Perspective

Designed by David Mitchell

A Change of Perspective is a minimalist double image pictorial active play paperfold ... yes, all of that ... which I designed in 2006. The finished design has just five active folds.

You will need a single square of irogami.

Begin folding with your paper arranged white side up.

1

1. Fold in half upwards, then unfold.

2

2. Fold the bottom right hand sloping edge onto the horizontal crease.

3. Unfold.

4. Fold the bottom corner inwards using the crease made in step 2 to locate the fold.

5. Fold the bottom right hand point inwards using the existing crease.

6. Turn over sideways.

7. Repeat steps 2 through 5 on the top half of the paper, making sure that the result looks like picture 8.

2

8

8. Fold the bottom half of the sketch upwards.

9

9. This is the first image. Rotate the back half of the sketch to the front.

10

10. A Change of Perspective.
